SUMMARY

I am an undergraduate student at Virginia Tech pursuing a Bachelor of Science degree in Computer Science with experience in front-end and back-end development. I am seeking opportunities in the Computer Science and Cybersecurity fields to develop new skills and improve my prior knowledge to excel in the field of Software Design

WORK EXPERIENCE

Developer Intern, Contractor for Department of State, Diplomatic Technology   **May 2024- Aug 2024**

- Created a reservation system to automate and simplify processes for Human Resources and Program Management
- Used Python, HTML, CSS, and SQL to help simplify processes for program management and human resources such as desk reservations
- Learned and gained experience with an Agile team structure and witness first-hand how an Agile team with cross-functional team members work

IT Support Agent, 4Help at Virginia Tech   **Sep 2024- Present**

- Responded to user incidents via phone and email, providing timely support and escalating complex issues to appropriate departments.
- Assisted Virginia Tech students, alumni, parents, and affiliates with technical issues, software usage, and access to critical documents.
- Worked hands-on with user directories, ensuring accurate account management and efficient resolution of access-related concerns.

ACTIVITIES

Personal Website Configuration and Design | nathanthatton.com   **Feb 2024-Mar 2024**

- Utilized HTML, CSS, and JavaScript to create a responsive personal website for self-marketing purposes. Additionally, managed domain hosting and configured DNS settings to ensure seamless access and performance.

Virginia Tech KASA Officer | vtkasa.com   **June 2022- Aug 2023**

- Performed leadership duties such as coordinating club meetings, organizing and preparing agenda items for the club, and prioritized a safe and accepting environment for enjoyment of all club members
- Created a website for the organization using HTML,CSS, and Javascript to improve accesibility to resources and boost member engagement
